Current Projects
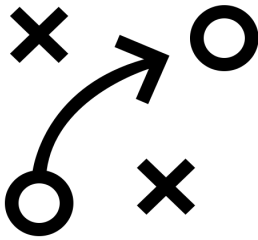

- ❏ **Current Project 1:** Finish our website design
- ❏ **Current Project 2:** Launch our site to the world under .net and .org
- ❏ **Current Project 3:** Discuss in depth legal issues with Mr. Russis

Obstacles + Wins

- ➜ **Obstacle:** legal issues (find safest and easiest way to not be liable for anything)
- ➜ **Obstacle:** Domain processing (have recently had a lot of trouble with our domain because dns servers aren't processing)
- ➜ **Recent Win:** completed landing page (landing page has been created as our first step in designing the website, launch ready)

The Ask

- ★ **Our "Ask" -** our ask is for a contact with someone who is well versed in coding for a website. As we do already have Mr. French, his web design experience isn't as up to date so an extra helping hand would be very helpful.

Our Metrics

Metric 1 - purchased wix	**last month**	N/A
Metric 2 - domain	**last month**	N/A
Metric 3 - biz email	**last month**	N/A
