

## Current Projects

- Website:** Updating the Venato website
- Makara:** Initial revenue gaining side-project
- Venato Trackers:** Originally pitched Venato project

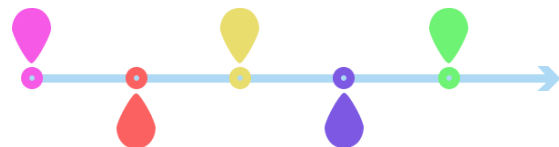

## Obstacles + Wins

- Financials:** Current financials are not enough to continue the initially pitched Venato Trackers, so a slight pivot was made to develop a revenue stream
- Large workload:** Being the only member, the workload is much heavier, so hiring an intern is a future expense.
- Donations through Stripe have been finalized!**

## Next Steps

- Hiring an intern
- Developing low Cost of Goods Sold products with high profit margins.

## Our Metrics
